

Highly specialised, highly capable

The WA leaders in shutdown support

Your Shutdown Partner

For a successful and safely executed shutdown, you require superior staff and specialised support.

As WA's leading shutdown support specialist, you can rely on superior staff and specialised support from our shutdown experts, to help you achieve shutdown success.

With a unique service, high level of experience and focus on safety, we ensure every shutdown is successfully completed, at the highest quality level, on time and on budget. Our team's vast knowledge of operational plants, adds further value to our clients, ensuring a smooth transition through commissioning from plant outage, to operation.

From the Pilbara to Perth, across WA and Australia, we partner with leading mining and oil and gas companies just like yours, to provide the shutdown support you've been looking for.

Specialised shutdown support is all we do, so you can trust that it's what we do best.

The right values for your shutdown solution

Safety

Safety is paramount and all our shutdown support comes with a strong commitment to focus on safety and ensure compliance.

We demonstrate health and safety best practice and comply with all client and site policies and procedures.

Teamwork

Teamwork is imperative at all times and is also key to shutdown success. With this in mind, our shutdown support team become an extension of yours, ensuring all roles work together with equal responsibility and the goal of collaborative and safe shutdown success.

Leadership

Our shutdown support staff are true leaders, with training in operational leadership in a broad range of industries, so you can rely on the very best support at every stage of your shutdown.

Their wealth of knowledge, communication skills, management style, conflict resolution techniques and more, all contribute to optimal motivation and training for your team.

Integrity

We make it our mission to always deliver what we promise and find the solution to all your shutdown needs, with exceptional support.

High level shutdown support

Shutdown support comes in many forms. With this in mind, we employ and provide a range of support, from Shutdown Execution Specialists, Shutdown Planners and Shutdown Schedulers, to Shutdown Material Support and Shutdown Administration.

Our team members are extensively trained and well equipped to support your site team, from shutdown start to finish. Think of us as your trusted shutdown partners and preferred source of support.
